ABOUT ME

To obtain a career in reputed organization which provides me ample opportunities excel in my profession and contribute effectively to the growth of the organization.

PROJECTS

1. **COFFEE SHOP**
   In this project combines various web technologies like HTML, CSS, Bootstrap, JavaScript, jQuery to create a modern, interactive, and responsive website with engaging features like a carousel and animated counters.

2. **GROCERY**
   A React Routing Project is a website built with React that uses a routing library like React Router to handle navigation. It allows users to move between different pages of the website without needing to reload the entire page and creating multipage website using routing.
